

## TECHNONICOL 04 BITUMEN EMULSION PRIMER

### Description of material

Bituminous emulsion primer TECHNOMICOL 04 is produced on the basis of bituminous dispersion in water. The material does not contain solvents, it has a neutral smell and is ideally suited for work in the premises.

### Application areas

Preparation (prime coating) of bases before installation of torch-on, self-adhesive roofing and waterproofing materials. The prime coating is necessary for ensuring the strong adhesion of the waterproofing materials to porous, rough and dusty surfaces.

### Method of application

The primer is recommended to apply to a processed surface by small and large brushes. Application temperature — between +5°C and +40°C. Dilute with water if necessary.

### Consumption

0.25–0.35 l/m<sup>2</sup> (1 l of primer per 3.33 m<sup>2</sup>).

### Packing

Bucket 20 liters.

### Storage

Store in dry place protected against sunlight at a temperature not less than +5°C. Guaranteed storage period — 12 months.

Property	Value
Content of bituminous with emulgator, %	25–40
Softening temperature, °C	75
Relative viscosity, s	5–30
Drying time, h	1
